SCAM ALERT - Domain Hijacker on the Loose

[Domaining Scams](#)

Domain Name Buyers Beware

Beachie over at [DNF](#) has warned everybody about a domain hijacker that attempted to sell him; Export.com, IC.com and Peak.com. The domains are already registered at Network Solutions, which Beachie has notified already about the problem. The hijacker was using two Gmail addresses; amirsiddiq@gmail.com and stillworks20@gmail.com. It is advised to be extra cautious when approached by someone offering to sell you premium domain names.
